Advanced SWAT Training Course

HOST THIS TRAINING

The OTOA does not teach one specific “Tactic.” The OTOA instructors teach “Principles.”

- The OTOA response protocols are built around basic principles.
- Violation of basic principles develops into poor tactics.
- The applications of fundamental principles lead to safer tactics.

This class is designed to **enhance the basic principles** learned in the OTOA Basic SWAT class and introduce students to **contemporary principles and tactics**, enabling them to become more skilled operators.

IMPORTANT

To participate in this class, it is highly recommended that students have attended and completed the OTOA Basic SWAT school (or equivalent).

Questions about "equivalent"?
Send an email to training@otoa.org.
