## Training Description:

This course is restricted to sworn officers of a United States governmental agency.  
OTOA membership is required to attend this class.

## HOST THIS CLASS

This comprehensive two-day class is designed to cover the safe and efficient deployment of pistols and rifles in close-quarters environments, considering the presence of officers, suspects, and uninvolved bystanders.

The course will explore various topics and disciplines, offering a contemporary approach to the close-quarters environment. This includes exploration of both conventional and unconventional weapons carry positions, with a strong emphasis on safety for individual officers, suspects/subjects, and uninvolved persons.

This training will focus on techniques and procedures for dealing with compliant and non-compliant individuals, teaching officers to operate effectively solo, with a partner, or within a team.

The curriculum also includes drills that involve decision-making and de-escalation techniques, providing a well-rounded and multi-faceted training experience.

Students will have the opportunity to demonstrate proficiency through reality-based scenarios.

This course involves the use of training cartridges - ***NO LIVE FIRE***
