

OTOA Contract Classes: Custom Courses for Agencies

OTOA Contract Classes: Custom Courses for Agencies

The OTOA offers tailored training solutions through our Contract Classes, designed to meet the unique needs of individual agencies or teams. Available in formats ranging from one to five days, these custom courses provide a curriculum built to address specific areas of deficiency or enhance operational skills.

Upon contracting, agencies receive a custom code, providing exclusive access to their customized courses. Whether you're looking to bolster tactical capabilities, refine procedural knowledge, or advance team coordination, our custom courses provide the targeted training you need to excel in your law enforcement duties.
